

1103HD, 1950HD ELECTRONIC MOTOR

The Electronic Motor supplied by Am-Source International is used on the 1103 Heavy Duty Drapery Track and the 1950 Vertical Blind Track Systems. The dry-contact control interface is especially desirable for direct access to all automated control systems such as Home Automation and Home Theater.

FEATURES

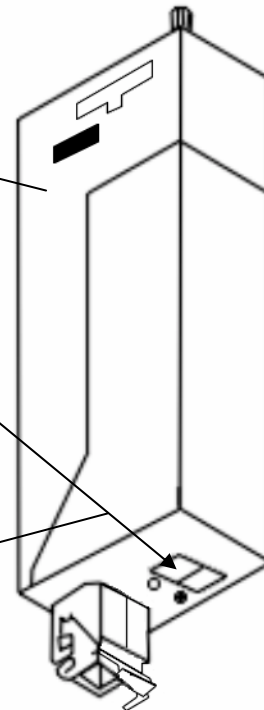

Built-in dry-contact control interface allows direct access to all Home Automation and Home Theater automated control systems.

Two standard, 4-conductor telephone plug receptacles (jacks).

Single (white dot) or group(orange dot) control.

Group control (requires AT464 splitter .)

Connection to Home Automation and Home Theater Control Systems via 4-conductor telephone wire.

Additional Product Features:

- UL approved motor
- Built-in thermal overload protection
- Easy limit setting that is protected during power outages.
- 1 year warranty
- Dry contact operation from multiple individual switches is possible without additional control devices
- Available with wireless remote control
- Motor may be wired in parallel
- Compatible with all automated control systems
- Motor may be plugged directly into standard wall receptacle
- Track Systems can be curved or bent on both inside and outside radii
- Motor may be programmed to operate from momentary or maintained switching
- Motor direction may be reversed without changing any wiring
